# MD TANZIM KHAN SHANTO

## FULL-STACK DEVELOPER

Tolarbag, Mirpur 1, Dhaka, Bangladesh •+8801303665747 • tanzim@tanzimkshanto.dev
https://tanzimkshanto.dev/

## ABOUT ME

**Full-Stack Developer** experienced in building modern, scalable web applications using **Next.js, React, Node.js, and Express**, with strong proficiency in **TypeScript, PostgreSQL, CockroachDB**, and **Prisma**. Focused on performance optimization, clean API integration, and developing AI-driven workflows using **n8n, Zapier**, and **MCP-based tools**. Experienced with **NestJS**, event-driven systems, **Git, CI/CD pipelines**, and **basic cloud deployment**. Comfortable working independently in a remote environment with strong communication and collaboration skills. **Codeforces Expert (Rating: 1714)** with a strong problem-solving mindset, focused on writing clean, efficient, and well- documented code.

## WORK EXPERIENCE

Paipixel

**Full-Stack Developer** **November 2025 - September 2026**

- Built a scalable Assessment Module for the **EducateU platform** using **Next.js, TypeScript,** and **Node.js**, ensuring strong type safety and modular architecture.
- Designed and implemented a dynamic **drag-and-drop form builder** using **DnD Kit**, improving workflow efficiency for non-technical users.
- **Translated Figma designs** into **pixel-perfect**, responsive interfaces optimized for performance, **SEO**, and **cross-browser** compatibility.
- **Integrated REST APIs** to **connect frontend** with **backend services**, ensuring reliable data flow.
- **Configured CI/CD pipelines** using **GitHub Actions** to automate builds, testing, and deployments.

BzrLab

**Full-Stack Developer** **2025**

- Developed and optimized **frontend applications** consuming **PostgreSQL-backed APIs**, focusing on efficient data handling and smooth user experience.
- Designed and integrated **REST and GraphQL APIs**, ensuring structured and reliable data flow across multiple **frontend interfaces**.
- Built **real-time UI features** using **WebSockets** and **NestJS**, handling live messaging and event-driven updates on the frontend.
- Collaborated in a team environment using **Git/GitHub**, ensuring maintainable and scalable code delivery.

## SKILLS

- **Frontend:** Next.js, React.js, TypeScript, Tailwind CSS, DnD Kit, Svelte, Responsive Design, Cross-browser Compatibility
- **Backend & Systems:** NestJS, REST APIs, GraphQL, WebSockets, Event-Driven Architecture, Webhooks, Cron Jobs
- **Databases:** PostgreSQL, CockroachDB
- **Automation & Tools:** n8n, Selenium, Playwright, yt-dlp, ffmpeg
- **AI & Workflow:** MCP Servers, Agent-based Workflows, AI-assisted Development
- **DevOps & Platforms:** Git, GitHub, GitHub Actions, CI/CD Pipelines, Docker
- **Programming Languages:** TypeScript, Python, SQL, C++

## PROJECTS

### Collaborative Team Hub (Turborepo)

- Built a full-stack team collaboration platform with workspaces, goals, announcements, and a drag-and-drop **Kanban board**.
- Implemented JWT auth with **httpOnly cookies,** role-based access control, and **Optimistic UI updates**.
- Added real-time updates and presence with Socket.io, and deployed the application on a private VPS using Docker.

### Automated Cross-Platform Content Pipeline

- Built an automation system that **scrapes image posts** from multiple TikTok channels with Playwright and stores the metadata in sqlite.
- **Automated scheduled posting** to Instagram, Facebook, TikTok, and YouTube through their APIs, with per-platform error handling and retries.
- Used GitHub Actions to keep the **scheduled jobs running** reliably, saving the client hours of manual work daily.

### Resource Hub

- Developed a web platform used by **thousands of students** to organize and share educational resources and PDFs.
- Built a **fully customized Admin Panel** with Firebase authentication and integrated Uploadthing, Mailchimp + Resend, and reCAPTCHA v3.
- Implemented automated book request workflows, orphaned file cleanup, and smooth RESTful API performance with **Zustand + Immer**.
- Optimized SEO, accessibility, and **responsive UI/UX** with **ISR/SSG** and light/dark mode support.

---

## ACHIEVEMENTS

- **Reached Codeforces "Expert" (Max Rating: 1714) —** Ranked among the top 8% globally using Python & C++. (Codeforces Profile)
- **Round 2 Contestant, Meta Hacker Cup 2023 (by Meta) —** Ranked 37th among all Bangladeshi contestants.
- **Asia-Pacific Informatics Olympiad (APIO) 2023 Contestant —** Selected among the Top 16 programmers in Bangladesh to represent the country.
- **National Finalist, Bangladesh Informatics Olympiad (BDIO) 2023 —** Ranked Top 14 nationwide.
- **Winner, Father Timm Memorial Programming Contest 3.0 (2023) —** Secured 10th place in a competitive regional programming contest.
- **Problem Setter & Judge —** Contributed to national-level programming contests organized by a leading non-profit science organization.

---

## EDUCATION

**Bachelor of Science in Computer Science and Engineering (CSE)**
Eastern University — Dhaka, Bangladesh
**Expected Graduation:** 2029

**Higher Secondary School Certificate (HSC)** 2022-2023
Major General Mahmudul Hasan Adarsha College
**GPA:** 4.67 / 5.0
